

If you build it they will come!

Building a successful IPE Curriculum

David Grant
Bristol Medical School

@davidgrantsim

What are the challenges of designing IPE Simulation?

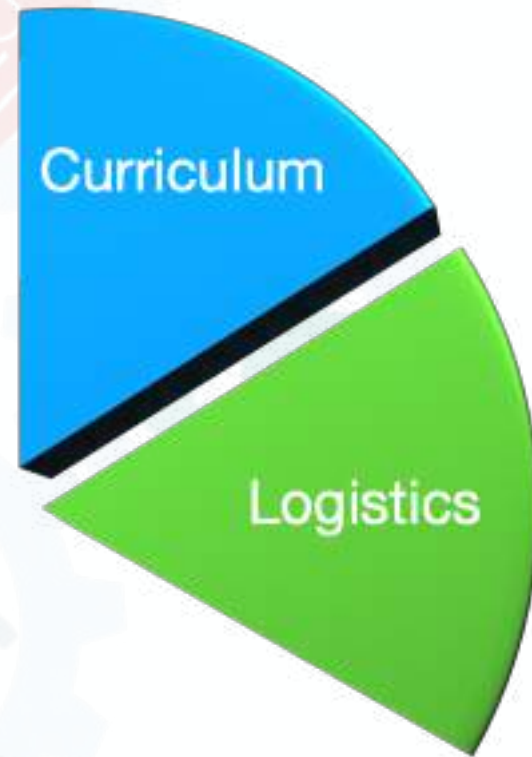

- Curriculum
 - Different ILO's, Developmental Needs & Stressors
 - Potential for different mental models
- Solutions
 - Faculty Development
 - Multi-professional Development Team
 - Focus on IP competencies
 - Integrate IPE in all activities
 - Start them early

Competency Domain 1:	Values/Ethics for Interprofessional Practice
Competency Domain 2:	Roles/Responsibilities
Competency Domain 3:	Interprofessional Communication
Competency Domain 4:	Teams and Teamwork

What are the challenges of designing IPE Simulation?

- Logistics
 - Scheduling
 - Finance
 - Human resources - more facilitators
- Solutions
 - Leadership support
 - Use existing opportunities - mandatory training

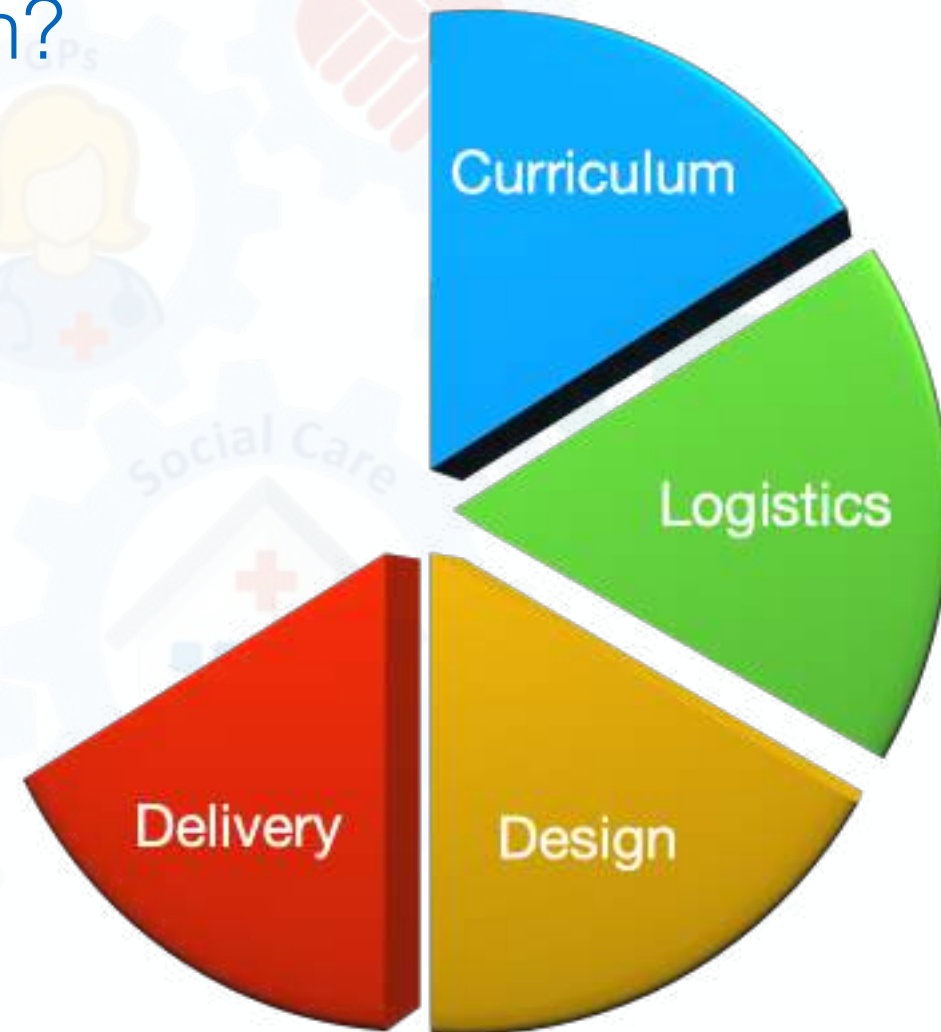

What are the challenges of designing IPE Simulation?

- Design
 - Achieving balance & equity
 - Conceptual Realism - Team & Scenario
- Solutions
 - Multi-professional design team
 - Faculty development
 - Departmental IPE Sim Champions
 - Hybrid simulations

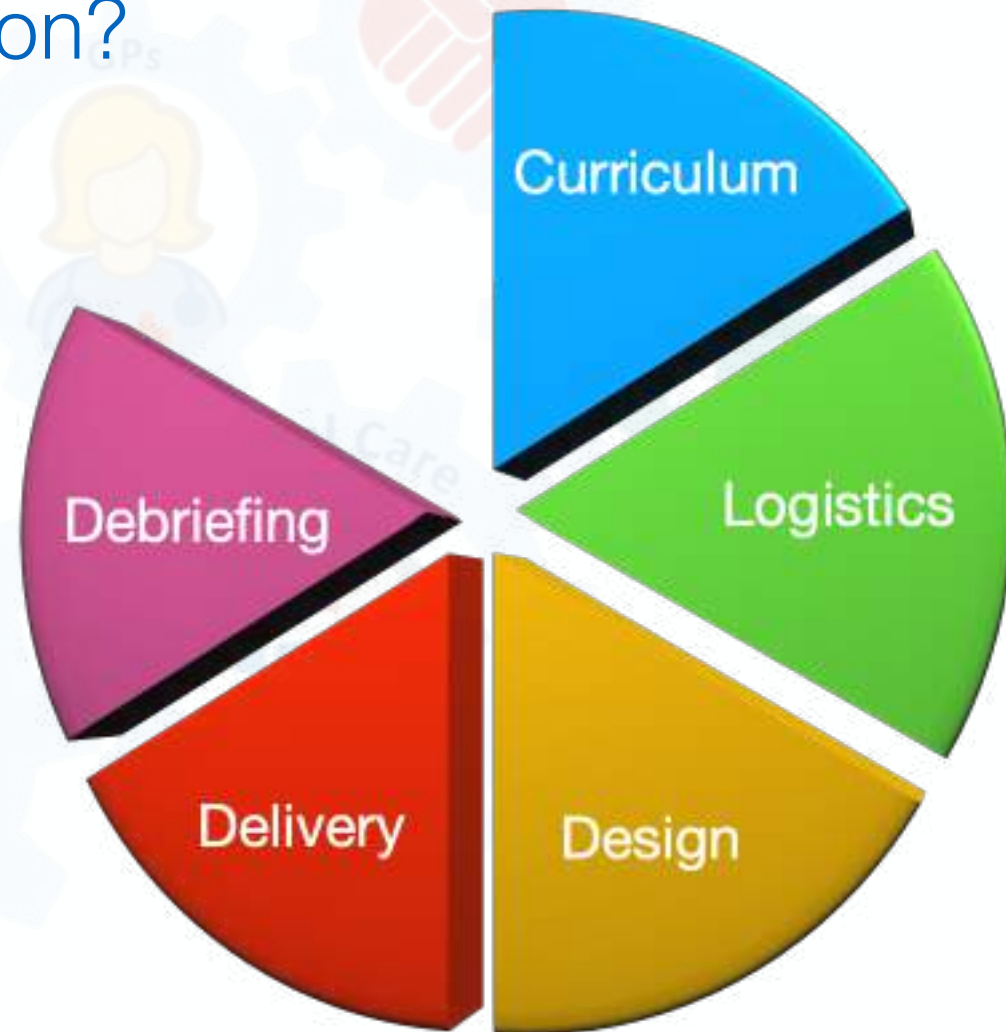

What are the challenges of designing IPE Simulation?

- Delivery
 - Achieving balance & equity
 - Conceptual Realism - Team & Scenario
 - Human resources - more facilitators
- Solutions
 - Multi-professional design team
 - Faculty development
 - Departmental IPE Sim Champions
 - Hybrid simulations
 - Aligning Service delivery & learning teams
 - Faculty Huddle & Learner Pre brief

What are the challenges of designing IPE Simulation?

- Debriefing
 - Emotional & psychological safety
 - Hierarchy
 - Balance of views - different mental models
- Solutions
 - Multi professional co debriefers
 - Peer Assisted Learning - use expertise in team
 - Faculty development
 - Departmental IPE Sim Champions
 - Aligning Service delivery & learning teams

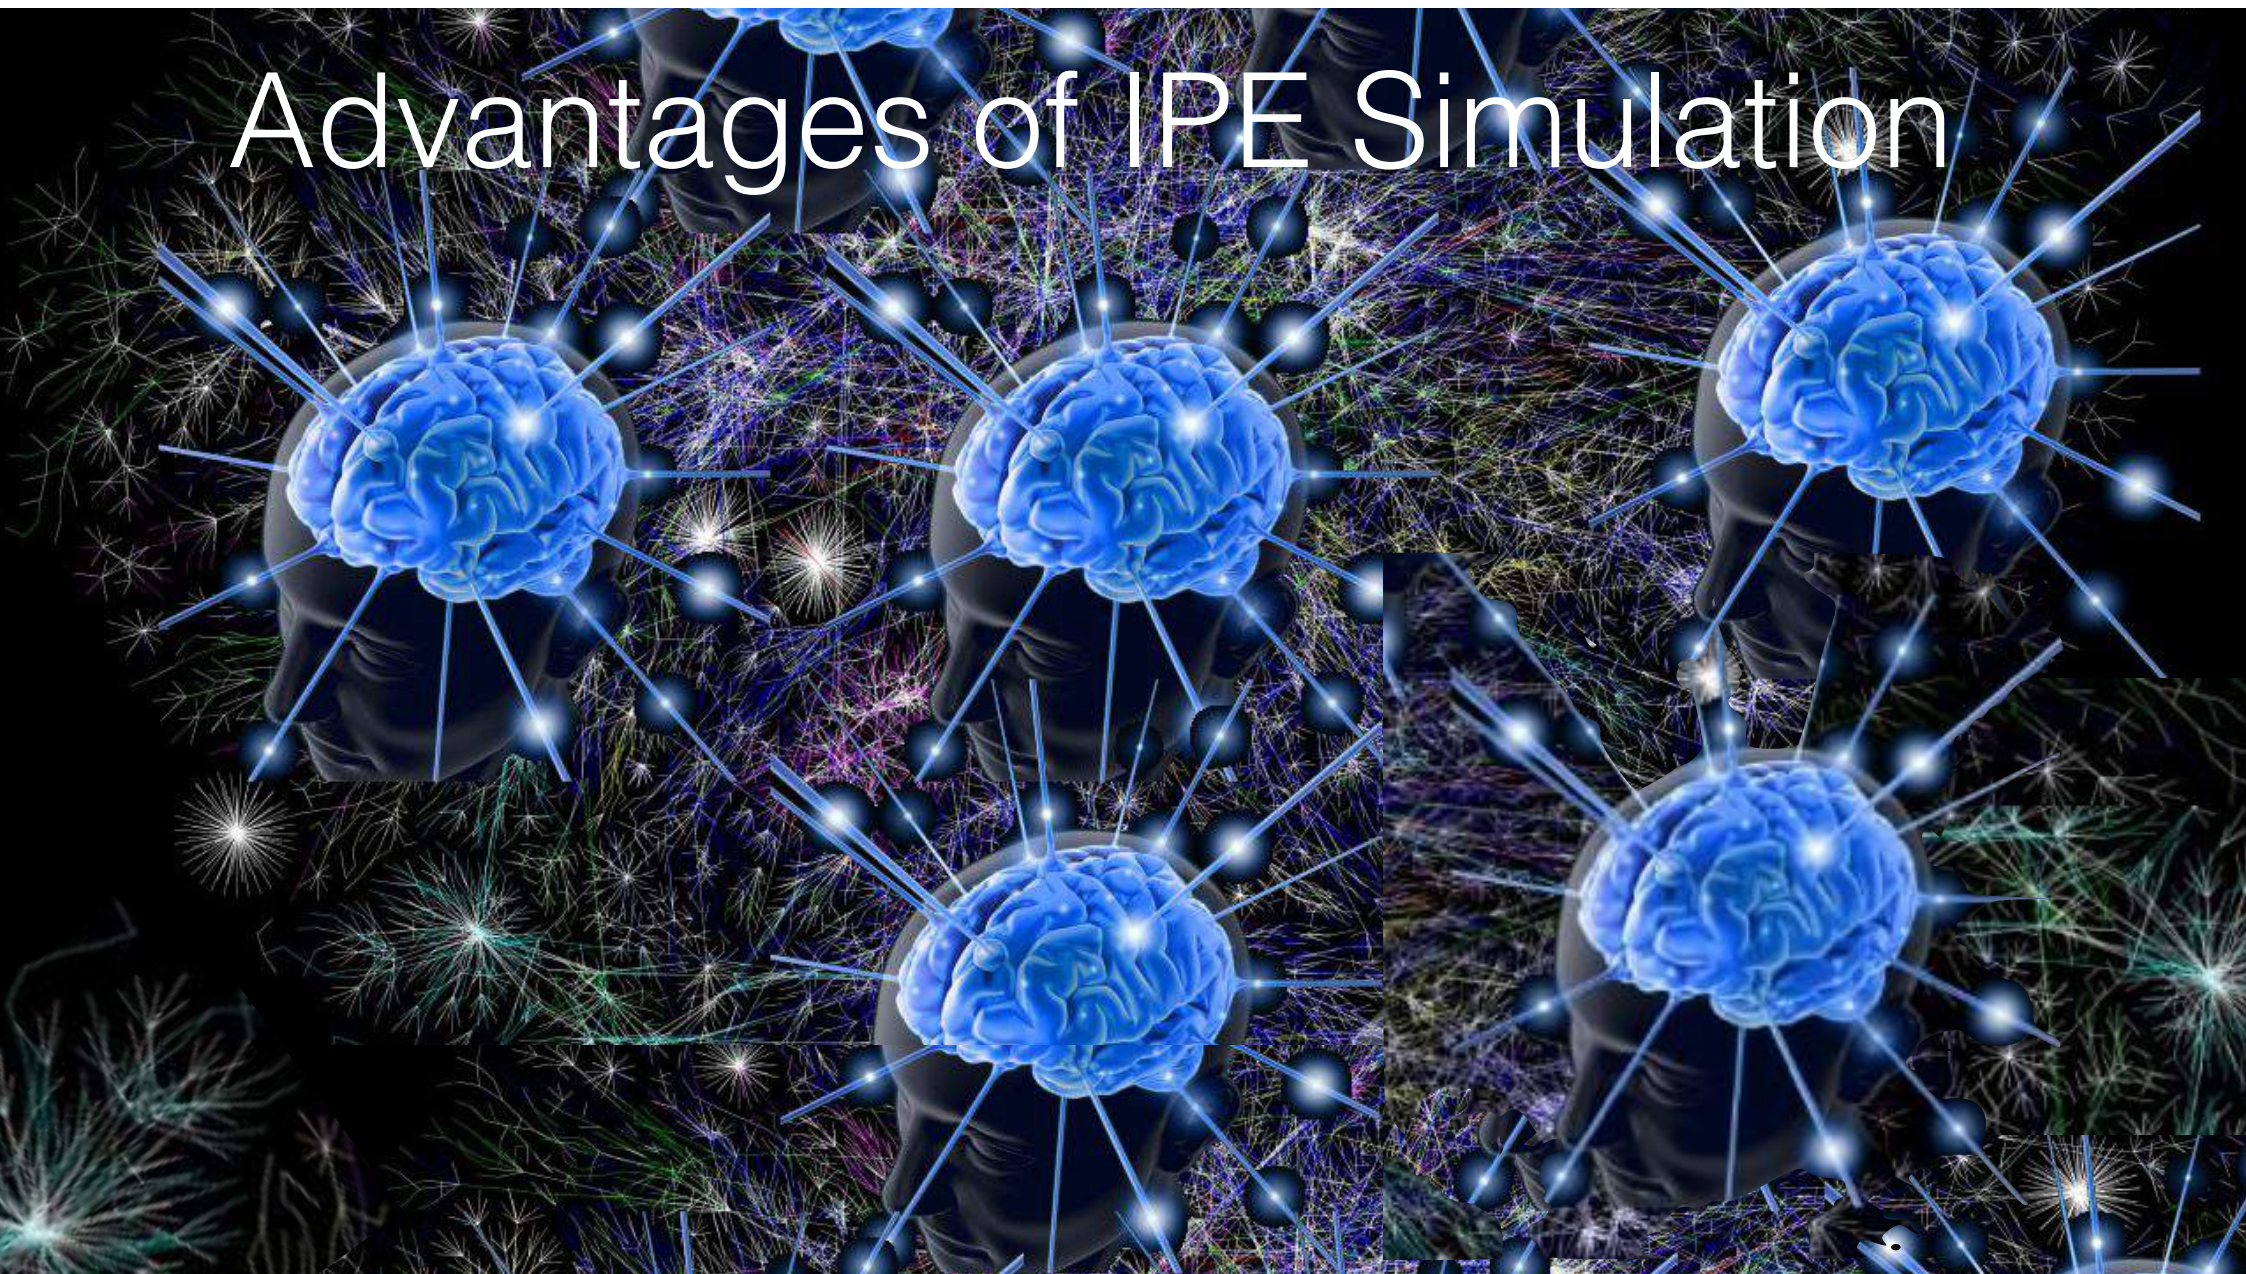

What are the challenges of designing IPE Simulation?

- Research
 - Social sciences - Qualitative
 - Harder to quantify
- Solutions
 - Focus on team assessment
 - Focus on outcomes

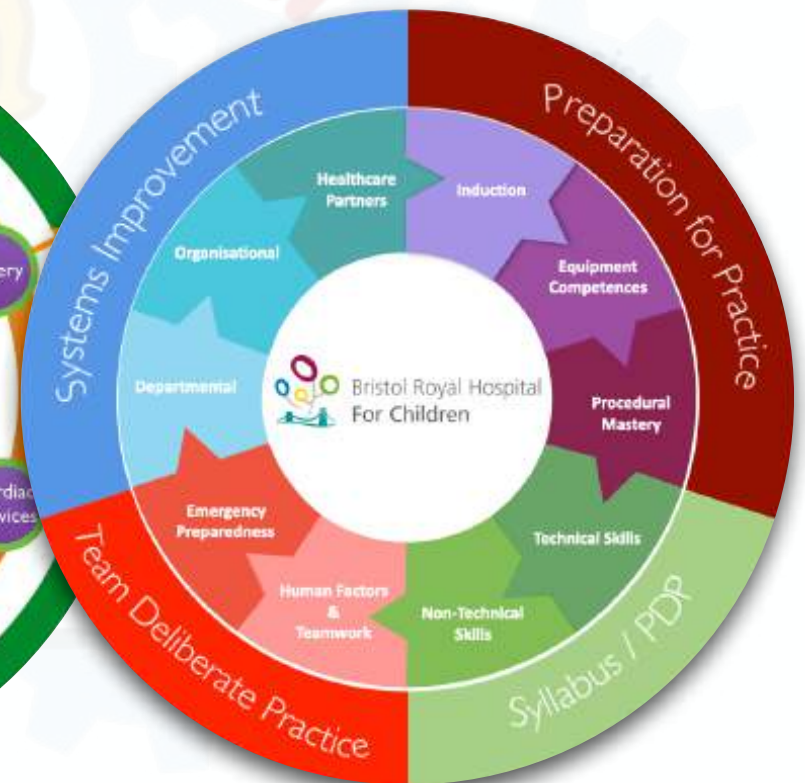

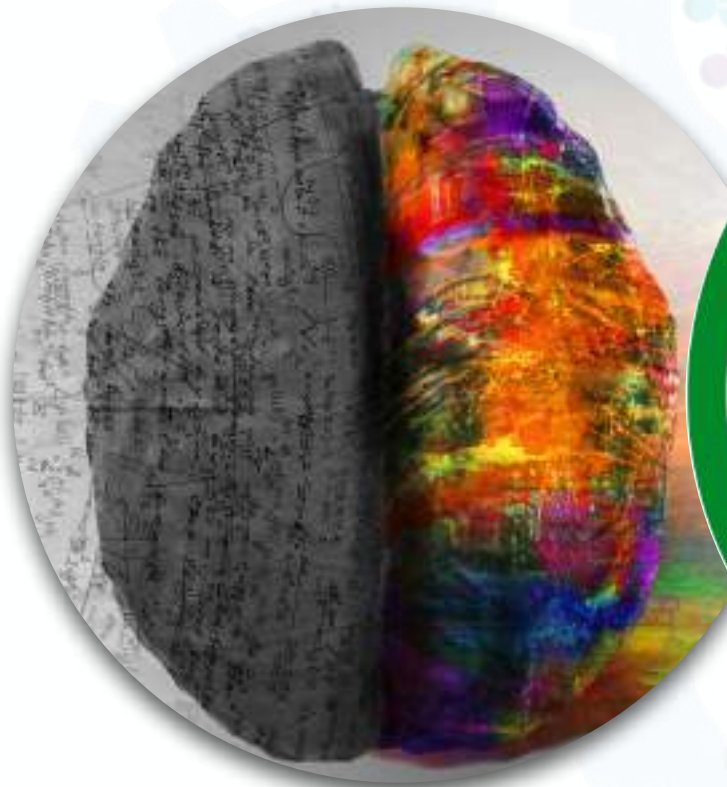

Advantages of IPE Simulation

Guiding Principles

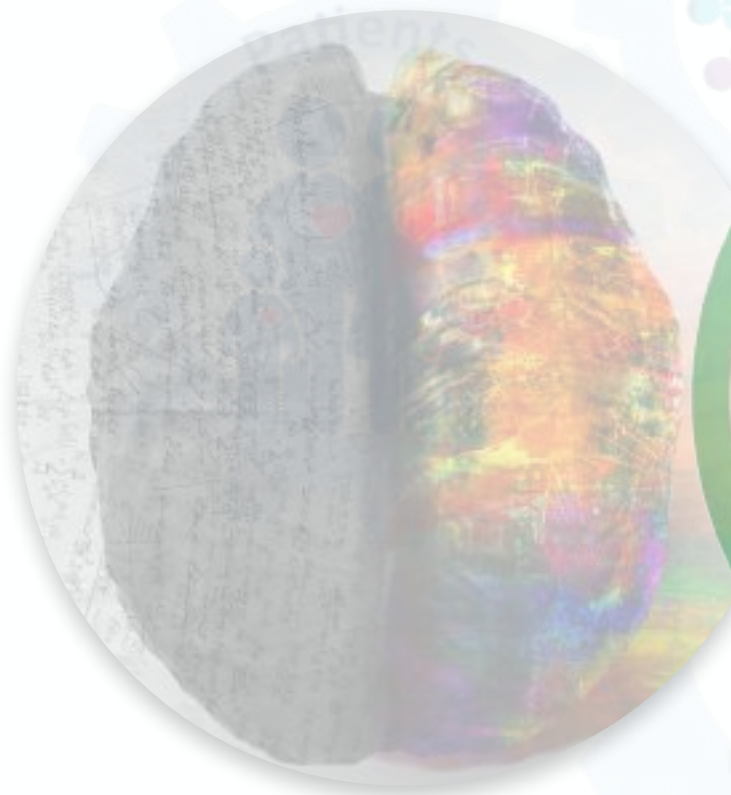

Enablers

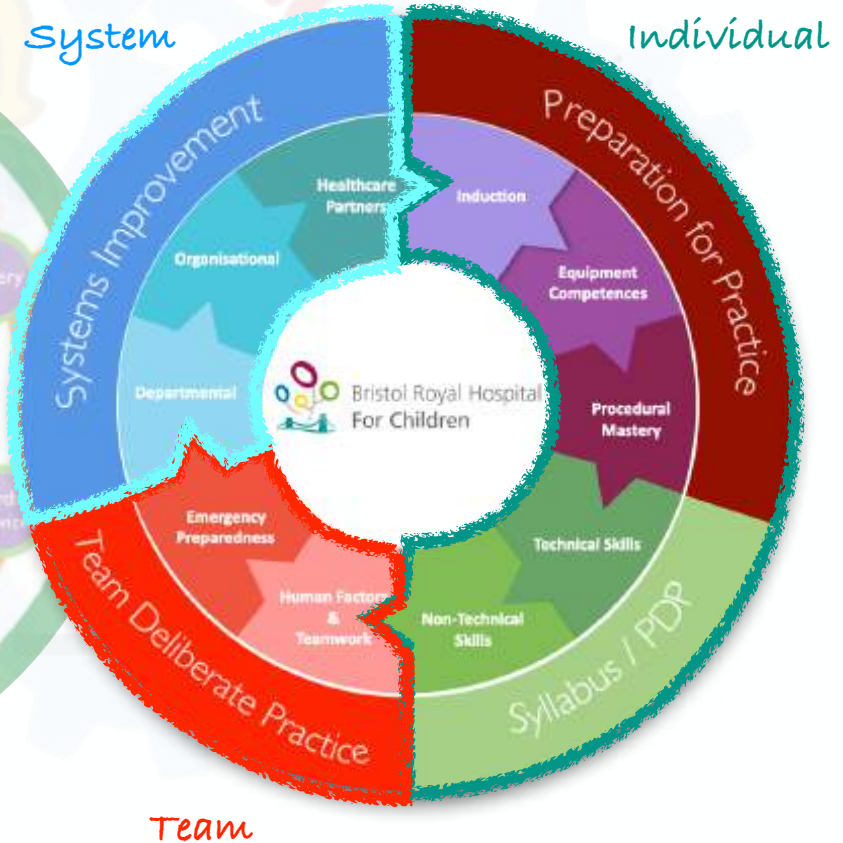

Enablers

Multi-professional

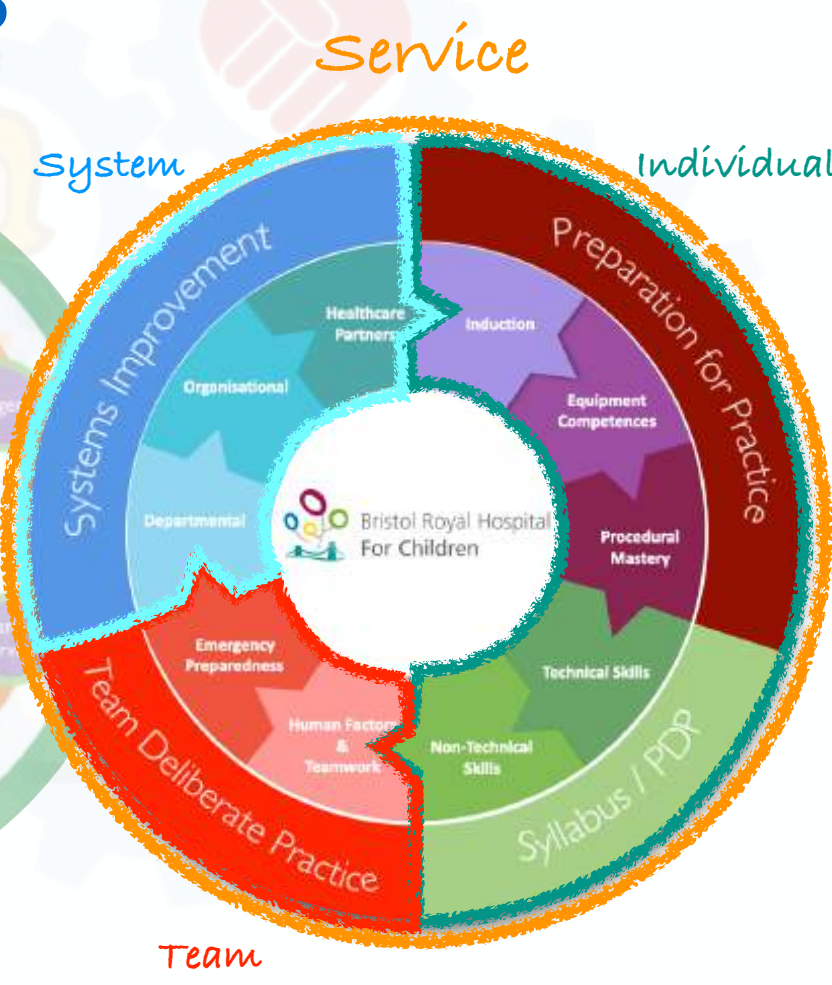

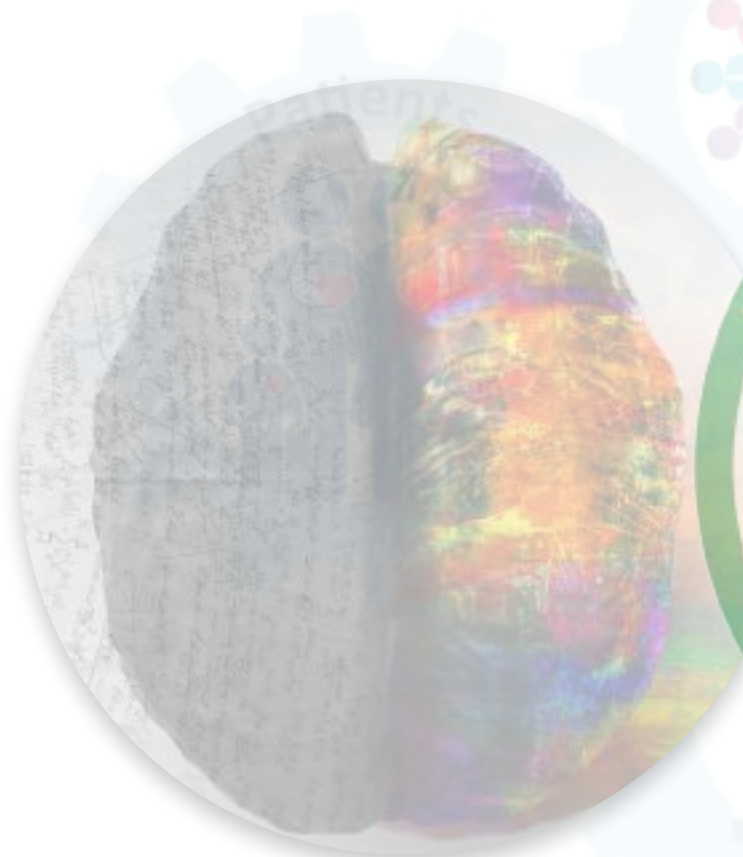

Uniprofessional

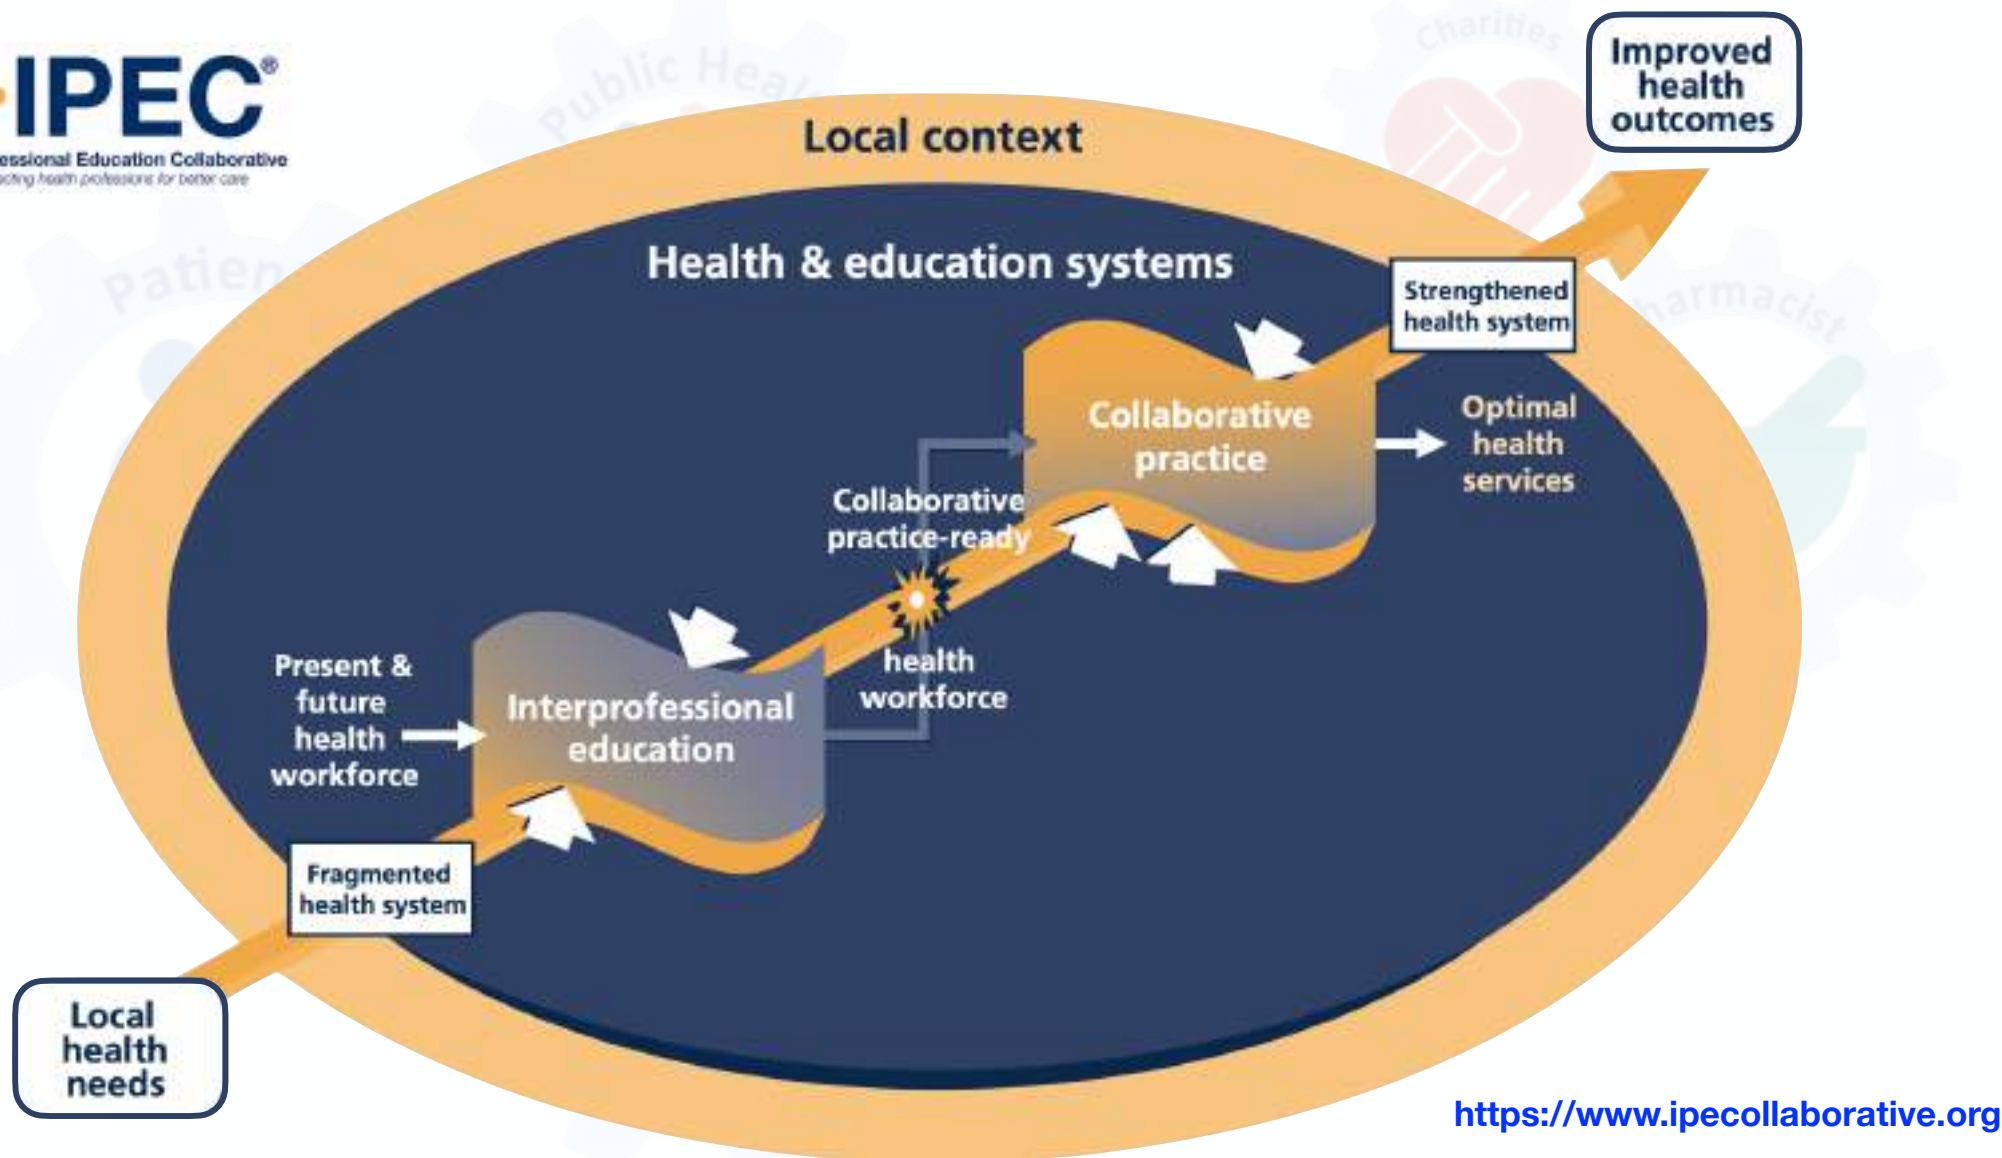

Enablers

Enablers

Year 1 IPE Event:
Values and Ethics, Roles and Responsibilities.
Healthcare Teams

Year 2 IPE Event:
Patient Safety

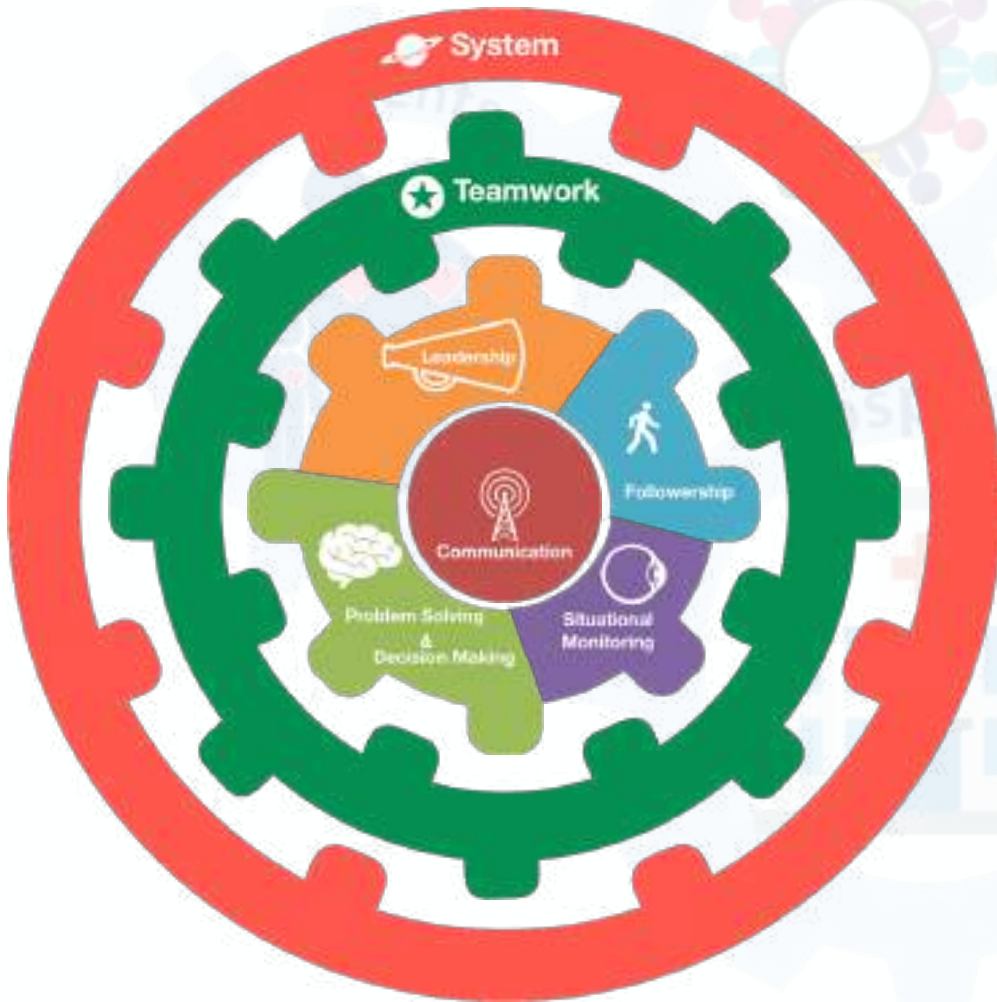

Year 3 IPE Event:
Standardised Patient Simulation discharge planning

Continuous:
Multi - professional Case based discussions

SafeTI Systems Curriculum

Module 1: Introduction to Patient Safety

Module 2: Teams

Module 3: Followership

Module 4: Communication

Module 5: Leadership

Module 6: Systems Approach to Situational Monitoring

Postgraduate

Cardiac Surgical Team Point of Care HFTM

Cardiopulmonary Bypass Oxygenator Failure
